EXPERIENCE

Prodigy InfoTech — Web Developer

Sep 1, 2024 - Sep 30, 2024

- Independently designed and built web projects using HTML, CSS, and JavaScript, focusing on responsive and user-centric designs.
- Enhanced coding skills through self-led projects, gaining proficiency in front-end development and implementing innovative features tailored to project requirements.

EDUCATION

School of Information Technology and Engineering(BSc),

2023-2027

Addis Ababa Institute of Technology

Highschool Diploma,

2018-2022

Nazareth School

PROJECTS

Weather Application: Developed a weather application utilizing a weather API to fetch and display real-time weather data. Implemented clean user interfaces and ensured seamless data integration to provide accurate, location-specific forecasts and climate insights.

Stop Watch: Created a stopwatch application using asynchronous JavaScript to handle accurate timing operations and user interactions. Implemented responsive controls and efficient state management for starting, pausing, and resetting time tracking.

TECH SKILLS

Java | Python | MySQL | HTML
| CSS | Bootstrap | JavaScript
